

# CORE WEDDINGS

Hi  
WE ARE CORE

*“There’s no way to capture exactly what a wedding feels like. But there are ways to touch it again.”*

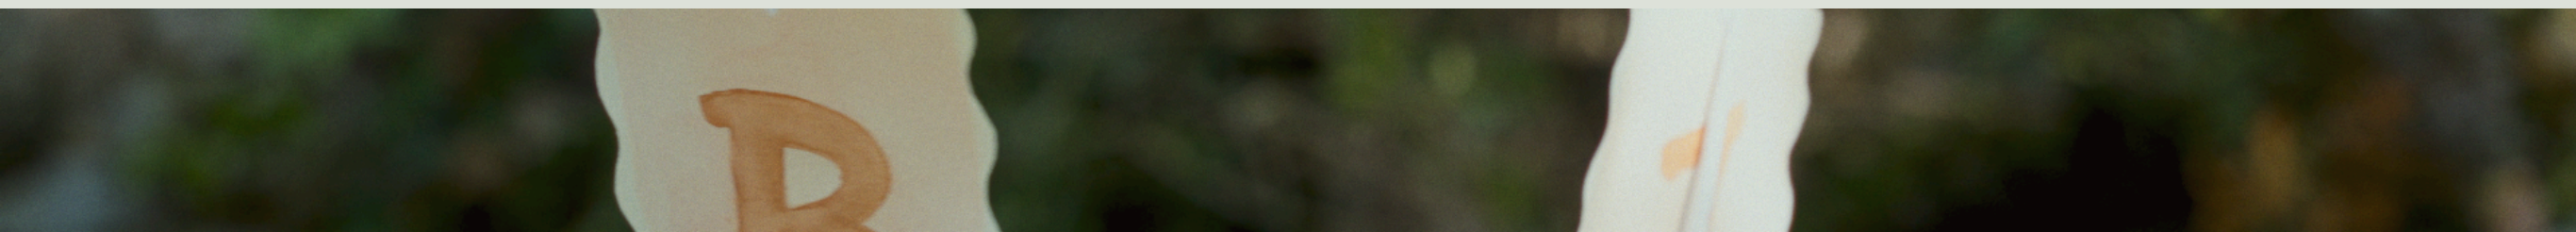

We are Sandra and Javist, an audiovisual couple with more than ten years of experience in the industry. But that is not the only reason we are here. We are here because what moves us most is not covering an event, but preserving the invisible: what cannot be repeated, but can be seen and felt again.

After working in advertising, growing through fiction, and being part of large corporate events, we understood something that stayed with us forever: every real story has its own energy. It cannot be manufactured. It cannot be forced. But it can be cared for, accompanied... and captured.

For years, we have worked on weddings exclusively for other brands, and now the time has come to open our own line of work. Because we know exactly what kind of stories we want to tell. And because we want to do it with our own vision, our own rhythm, and everything we truly are.

Our approach is cinematic, and we care for every detail because that is how we grew.

This dossier is only a door that we hope you will step through, so we can begin living these experiences together.

# NUESTROS VIDEOS

Trabajamos diferentes estilos en función del tipo de boda o evento. Cada momento es único, y trabajamos diferentes formas de contarlo.

Estos son algunos ejemplos de nuestros "VÍDEOS CORTOS" o "HIGHLIGHTS VÍDEOS" que entregamos.

# COLOR GRADE

We film, edit, and color grade. We are an audiovisual production company with a special attention to detail. For us, it is not only about what is seen, but how it is seen. A visual narrative.

# LITTLE DETAILS

What you are about to see are video stills, not photographs as such. We usually do both: delivering still images from the best moments captured on video, as well as photography itself.

# HOW WE WORK

---

Our work as videographers is not based on directing or creating an artificial scene. We do not believe in asking for smiles, making people repeat moments, or interrupting what is naturally unfolding. We believe in being attentive. In recognizing the exact instant just before something real happens, and being able to capture it without anyone noticing.

We like to be present without taking over, allowing everything to happen naturally, without forcing it. We work with natural light whenever possible, and avoid frames that feel cold or overly staged. We prefer what is imperfect but alive, what is real even if it is not symmetrical. That is our way of telling stories: as they are, without unnecessary embellishment.

Because every story is unique, and that is the magic: capturing life as it truly feels.

As part of our professional approach, we can handle the filming — with one, two, or three cameras — and the editing. We also have additional equipment such as drones, microphones, lighting gear, and everything required according to the needs of each project.

# PACKS

---

We would love to have a meeting and begin a new chapter together.

If you are looking for a production company that works with sensitivity, vision, and professionalism, we would be delighted to meet you.

Thank you for getting this far and taking the time to get to know us a little better.
